OUR CONGRESSIONAL PLECTION. HON. DAVID M. CURHIN. It may probably not be known to many that our election for Congressmen in this State, as well as in all the Confederate States, comesoff on the same day with the Presidential election, which takes place on the 6th of November. In view of the near approach of the day, it is reasonable and proper that the people of the Tenth district, although their attention is mainly absorbed in the war movemeaus, should be casting about them for a suitable representative. We say the people, for the reason that we hope to see our next election, as was the last, divested of all party bias and partisan rancor. This is especially desirable so long as the war shall continue, as it is only by unity among ourselves at the South that we can hope to prosecute it to a successful and triumphant termination.

As to the individual who shall represent us, it is of course a matter about which persons will differ in opinion, though we have but little doubt that a large majority of the voters of the district will favor the re-election of David rectively. M. Courts. Indeed, we might say that it is probably due Mr. Cuants that he should be returned to the next Congress. Having once been honored with the confidence and suffrages of the people of his district, it is but observing a time-honored enstom to bestow upon such a candidate the compliment of a second election condemnation, for which, we are sure, the peo- branch of the next Legislature of Mississippi. ple of this district, who have seen in his brief Mr. Tomlinson is a time man and sterling citicongressional career nothing to object to, are zen, and if elected, will make an honest and
